25X1

1. A new railway bridge is being constructed approximately 100 meters away from the railroad station of Ratibor over the Oder river (Alte Oder) on the Raciborz-Kedzierzyn line. The construction was started in 1953 and will be finished in April 1954.
2. Technical data on the bridge is as follows: four pillars; total length, 75 meters; width, 4.5 meters; height, 6 meters. The material is reinforced concrete. The bridge is planned for two railway lines.
3. The ability of the bridge to withstand high water is questioned by technicians.
